Beginning in Fall 2013, new parking guidelines are in place for visitors to the DOC House. Participants in courses, visitors to the ILEAD office, or attendees at events located at the DOC House must begin new parking practices when arriving at the DOC property. This map and the text below it illustrate where parking is permitted around the DOC House, and where it is prohibited. We ask our members to please adhere to these guidelines, and consider car-pooling whenever possible.

**MAP LEGEND**

- **DOC House:** Parking is no longer permitted on the DOC property, aside from the two handicapped spaces marked along the crescent driveway. (Indicated by the wheelchair icons on the map.) If you or a passenger in your vehicle have mobility issues, you may briefly park near the entrance to allow someone to exit the vehicle, but the vehicle itself cannot remain parked on the property. The same applies for loading or unloading packages and materials for courses or events.

- **Hilton Field Road:** The marked spaces lining the wooden fence on Hilton Field Road are acceptable parking for ILEAD participants. However, please note that the gravel parking areas at the base of the hill are reserved strictly for Hanover Country Club visitors and are NOT for ILEAD use.

- **Ocomm Ridge:** ILEAD participants may park along the northern edge of Ocomm Ridge (the side of the road furthest from the pond) provided their parked vehicle follows the flow of traffic. (Meaning your car should face the same direction in which you would drive.)

Remember that ILEAD course participants receive a roster for each course that includes contact information for the entire class. Please consider arranging a car-pool with others in your course.

We apologize for any inconvenience these changes cause, and thank our members for their understanding and cooperation.
